March 2019

Dear Residents:

I want to follow up on the maintenance cost of the water storage tank. We estimate that a budget of \$17,600 per year (in today's dollars) would be reasonable to fund the needs of a new elevated water storage tank maintenance. At the current yearly usage of 43.8MGY, the allocation for the tank maintenance would be \$.40 per 1,000 gallons. We pay \$.91 per 1,000 gallons to Round Lake Beach for the transmittable transport of water. As you can see, we will have enough funds available for maintenance for this project. We anticipate not raising the water rates for maintenance for now or in the near future. For any concerns or questions please attend a Village Board meeting or set up a meeting with myself to explain the pros and cons to having an independent water system.

Dollars for Scholars information will be available shortly. We are setting up an online application for any of our residents who are continuing education. When you see the Village post the signs for Dollars for Scholars is when you be will be able to go online.

If you have any questions please do not hesitate to contact me.

Sincerely,
-Terrance Lumpkins, Mayor

Cabin Fever

Is cabin fever an actual thing?
You don't have to tell me. I know.
I'm looking out at the world outside:
Ice. Wind. Snow.
A medical diagnosis
would probably not help a lot.
I have all the symptoms, so I'm pretty sure
that's exactly what I've got.
I'm antsy. I need to be moving,
but I don't know where I could go.
Fleece and down won't keep me warm
when the wind chill is thirty below.
A walk inside a busy mall
or a yoga class might bring
a bit of relief for a little while,
but I'm thinking, Come on, spring!

What did the left eye say to the right eye?

Between you and me something smells

March FUN FACTS-

March is the third month of the year, has 31 days, and is named after **Mars**,
